This policy is reviewed and updated annually on the publication of updated JCQ regulations and guidance on access arrangements and instructions for conducting exams.

References in this policy to **AA** and **ICE** relate to/ are directly taken from the *Access Arrangements and Reasonable Adjustments 2023/2024* and *Instructions for Conducting Examinations 2023-2024* publications.

Introduction

The use of a word processor in exams and assessments is an available access arrangement.

(AA 4.2.1)

The purpose of an access arrangement is to ensure, where possible, that barriers to assessment are removed for a disabled candidate preventing him/her from being placed at a substantial disadvantage as a consequence of persistent and significant difficulties.

The integrity of the assessment is maintained, whilst at the same time providing access to assessments for a disabled candidate.

The SENCo or an equivalent member of staff within an FE College *must* ensure that the proposed access arrangement/reasonable adjustment does not disadvantage or advantage the candidate.

(AA 4.2.2)

Although access arrangements are intended to allow access to assessments, they cannot be granted where they will compromise the assessment objectives of the specification in question. **For example, the use of a practical assistant will not normally be allowed when practical skills are being tested.**

(AA 4.2.3) **Candidates may not require the same access arrangements in each specification.**

Subjects and their methods of assessments may vary, leading to different demands of the candidate. SENCos should consider the need for access arrangements on a subject-by-subject basis.

Purpose of this Policy

This policy details how Burnley College complies with *AA Chapter 4 Adjustments for Candidates with Disabilities and Learning Difficulties* and *Chapter 5.8 Word Processor* when awarding and allocating a candidate the use of a word processor in his/her exams.

The term 'word processor' is used to describe for example, the use of a computer, laptop, or tablet.

The Use of a Word Processor

Burnley College will

- allocate the use of a word processor with the spelling and grammar check facility/predictive text disabled to a candidate where it is their

normal way of working within the centre for example, the quality of language significantly improves because of using a word processor due to problems with planning and organisation when writing by hand **but only if there is evidence to show that this will not advantage or disadvantage candidates.** (AA 5.8.1)

- allow use of word processor with spelling and grammar switched on **or** a word processor with predictive text/spelling and grammar check switched on where the centre has approval for use of a scribe and where it reflects the candidate's normal way of working within the centre, as appropriate to the candidate's needs. If the candidate does not have a current EHCP, a completed Form 8 must show a below average spelling accuracy score of 84 or less with unrecognisable spellings. (AA 5.7.5)
- allow word processors in non-examination assessment components where this is considered standard practice unless prohibited by the specification. (AA 5.8.2)
- allow a candidate using a word processor in an examination to type certain questions, i.e., those requiring extended writing, and hand write shorter answers if appropriate. (AA 5.8.3)
- consider students' difficulties to qualify for a word processor:
 - a learning difficulty which has a substantial and long-term adverse effect on their ability to write legibly.
 - a medical condition.
 - a physical disability.
 - a sensory impairment.
 - planning and organisational problems when writing by hand.
 - poor handwriting.

Burnley College will not

- grant a word processor to a candidate because he/she now wants to type rather than write in examinations or can work faster on keyboard, or because he/she uses a laptop at home.
- grant a word processor if this does not reflect the candidate's normal way of working within the centre.

- Allow a candidate to use their own word processor in an exam.

Permission to use a laptop or device in class should not be taken to imply permission or to allow this arrangement in assessments/exams.

Exceptions

The only exception to the above where a word processor would be considered for a candidate would be:

- in the event of a temporary injury or impairment, or a diagnosis of a disability or manifestation of an impairment relating to an existing disability arising after the start of the course (AA 8.3)

Arrangements at the time of the Assessment for the use of a Word Processor

A candidate using a word processor is usually accommodated in a smaller room.

To comply with ICE 14, Burnley College will:

- provide a word processor with spelling and grammar check facility/predictive text disabled (switched off) (ICE 14.20)
- check the battery capacity of the word processor before the candidate's exam to ensure that the battery is sufficiently charged for the entire duration of the exam allowing seating of a candidate without the need for separate power points or individual invigilation - unless this is part of their exam access arrangements (ICE 14.21)
- ensure the candidate is reminded to check that his /her centre number, candidate number and unit/component code appear on each page as a header or footer e.g., 12345/8001 – 6391/01 (ICE 14.22)
- If a candidate is using the software application Notepad or Wordpad these do not allow for the insertion of a header or footer. In such circumstances, once the candidate has completed the examination and printed off his/her typed script, he/she must handwrite their details as a header or footer. The candidate must be supervised to ensure that he/she is solely performing this task and not re-reading their answers or amending their work in any way.

- ensure the candidate understands that each page of the typed script must be numbered, e.g., Page 1 of 6 (ICE 14.23)
- ensure the candidate is reminded to save his/her work at regular intervals (or where possible, an IT technician will set up 'autosave' on each laptop/tablet) (ICE 14.24)
- instruct the candidate to use a minimum of 12pt font and double spacing to assist examiners when marking (ICE 14.24)

(ICE 14.25)

Burnley College will ensure the word processor:

- is in good working order at the time of the exam.
- is accommodated in such a way that other candidates are not disturbed and cannot read the screen.
- is used as a typewriter, not as a database, although any standard formatting software is acceptable and is not connected to an intranet or any other means of communication.
- is cleared of any previously stored data. An unauthorised memory stick must not be used by a candidate. If needed, the centre must provide a memory stick which is cleared of any previously stored data for the candidate.
- does not give the candidate access to other applications such as a calculator (where prohibited in the examination), spreadsheets etc.
- does not include graphic packages or computer aided design software unless permission has been given to use these.
- does not have any predictive text software or an automatic spelling and grammar check enabled unless the candidate has been permitted a scribe or is using speech recognition technology (a scribe cover sheet must be completed), or the awarding body's specification permits the use of automatic spell checking).
- is not to be used on the candidate's behalf by a third party unless the candidate has permission to use a scribe.

Printing the script after the exam is over.

Burnley College will ensure:

- the word processor is either connected to a printer so that a script can be printed off, or have the facility to print from a portable storage medium.

- that the candidate is present to verify that the work printed is his/her own.
- that a word-processed script is attached to any answer booklet which contains some of the answers.
- a word processor cover sheet may be required by an awarding body.
- electronic copies of word-processed scripts may be retained and may be used by an awarding body if the printed copy is lost.
- that the electronic file has been kept securely.
